

“Jump into July” Network promotion - Terms and Conditions - MGA

1. Promotion mechanics

The “Jump into July” Network Promotion will run between Tuesday the 4th of July 2023 (00:00 CET) and Monday the 31st of July 2023 (23:59 CET).

The promotion consists of an overarching quest and four blitz tournaments which will be held once per week during the promotion’s duration:

a) **Jump into July Quest** – time limited Quest (progressive type)

The Jump into July Quest is a time limited quest with a total of 28 milestones. Each day throughout July a new milestone will be made available for completion. Once unlocked, players may complete the individual milestones at any point during the promotion’s duration.

Each milestone completed will reward the players with additional Free Spins. Each player may win up to 750 Free Spins during the promotion’s duration for their participation. For more information on the free spin prizes refer to the **Promotion structure and schedule** section of this document.

b) **July blitz** - Blitz tournaments

Leaderboard mechanic: Sum of Wins

Players compete based on the sum of wins scored during their individual blitz tournament runs after opting in for participation.

Once a player opts in within the tournament widget, he is given a limited number of rounds to score as good of a result on the leaderboard as possible. Once the player uses all available rounds, their result on the leaderboard is final.

A player may retry the challenge a given number of times if they are not satisfied with their result. **Please note:** Restarting the challenge resets the player’s score on the leaderboard.

The 10 best players of each July blitz will win a share of 1.000 Free Spins.

2. Opt in and participation

The participating games need to be positioned in a prominent lobby space. The qualifying games need to be visible upon the players' arrival on your website on both mobile and desktop throughout the promotional period.

We recommend preparing an exclusive tab of qualifying games for a better player experience and easier navigating.

A website slider needs to be included to your website (desktop and mobile). A banner example will be available for use at Bragg Gaming's client area and can be used or modified for promotional purposes.

The games must have at least one promotional campaign structured around them (Email or SMS send out, social media campaigns, affiliate promotions, website promotion, etc.). We encourage you to share all promotional materials with us.

*If the operator has automatic awarding supported the prizes will be issued automatically for the game which the tournament ran on as soon as the leaderboard concludes. Operators without automatic awarding need to issue the prizes manually.

4. Notification and rewarding

The notification will be executed as follows: The dedicated account manager will notify the operators about the winners. If the operator confirms that the winning player is eligible for the prize the free rounds³ will be issued either directly via the API (if the operator supports automatic awarding), or manually by the operator⁴.

If implemented, automatic awarding of free rounds will occur immediately when a quest's milestone is completed by a player, or when a blitz tournament concludes. Notification for operators without automatic awarding will occur once weekly (each Tuesday during the promotion's duration).

The prizes will be covered by Bragg Gaming and deducted on the next monthly invoice. The winning players can originate from any participating operator.

The value of the free rounds (0,20€⁵ or its equivalent in other currencies) can be used within each milestone's and each blitz tournament's corresponding games.

³ The free rounds can only be used by operators, which have the Bragg Free Rounds API integration completed.

⁴ Manually issued meaning, the operator must visit the Bragg Aggregator Back-Office to credit the players.

⁵ If a game's minimum bet exceeds 0,20€, the free round value is exceptionally the next closest free spin value available for the game.

5. General Terms and Conditions

Elements of the dedicated promo pack must be used on the gaming site(s), in newsletters and other media including social media. The promo pack will be made available in the Bragg Gaming's client area – Promotions section.

The participating games need to be positioned in a prominent lobby space. At least three games of the current tournament cycle need to be visible upon the players' arrival on your website on both mobile and desktop throughout the promotional period.
