The Dive into August Quest is a time limited quest with a total of 28 milestones. Each day of August that the promotion will be running on a new milestone will be made available for completion. Once unlocked, players have 24 hours to complete the milestone.

2. Opt-in and participation

The participating games need to be positioned in a prominent lobby space. The qualifying games need to be visible upon the players' arrival on your website on both mobile and desktop throughout the promotional period.

We recommend preparing an exclusive tab of qualifying games for a better player experience and easier navigating.

A website slider needs to be included to your website (desktop and mobile). A banner example will be available for use at Bragg Gaming's client area and can be used or modified for promotional purposes.

The games must have at least one promotional campaign structured around them (Email or SMS send out, social media campaigns, affiliate promotions, website promotion, etc.). We encourage you to share all promotional materials with us.

*If the operator has automatic awarding supported the prizes will be issued automatically for the game which the tournament ran on as soon as the leaderboard concludes. Operators without automatic awarding need to issue the prizes manually.

4. Notification and rewarding

The notification will be executed as follows: The dedicated account manager will notify the operators about the winners. If the operator confirms that the winning player is eligible for the prize the free rounds¹ will be issued either directly via the API (if the operator supports automatic awarding), or manually by the operator².

If implemented, automatic awarding of free rounds will occur immediately when a quest's milestone is completed by a player, or when a blitz tournament concludes. Notification for operators without automatic awarding will occur once weekly (each Thursday during the promotion's duration).

The prizes will be covered by Bragg Gaming and deducted on the next monthly invoice. The winning players can originate from any participating operator.

The value of the free rounds (0,20€³ or its equivalent in other currencies) can be used within each milestone's and each blitz tournament's corresponding game.

¹ The free rounds can only be used by operators, which have the Bragg Free Rounds API integration completed.

² Manually issued meaning, the operator must visit the Bragg Aggregator Back-Office to credit the players.

³ If a game's minimum bet exceeds 0,20€, the free round value is exceptionally the next closest free spin value available for the game.

5. General Terms and Conditions

Elements of the dedicated promo pack must be used on the gaming site(s), in newsletters and other media including social media. The promo pack will be made available in the Bragg Gaming's client area – Promotions section.

The participating games need to be positioned in a prominent lobby space. At least three games of the current tournament cycle need to be visible upon the players' arrival on your website on both mobile and desktop throughout the promotional period.
