1. Promotion mechanics

The “Spooktacular October” Network Promotion will run between Saturday the 7th of October 2023 (00:00 CET) and Tuesday the 31st of October 2023 (23:59 CET).

The promotion consists of an overarching quest and five game-based tournaments which will be held every 5 days during the promotion’s timeframe and last for the full duration of those 5 days:

a) **October Quest** – time limited Quest (progressive type)

The October Quest is a time limited quest with a total of 25 milestones. Each day throughout October (during which the quest will be active) a new milestone will be made available for completion. Once unlocked, players may complete the individual milestones at any point during the promotion’s duration.

Each milestone completed will reward the players with additional Free Spins. Each player may win up to 720 Free Spins during the promotion’s duration for their participation. For more information on the free spin prizes refer to the **Promotion structure and schedule** section of this document.

b) **Trick ‘r Treat Wild Chase** – Game-based tournaments

Leaderboard mechanic: Total number of Wilds

Players compete based on the number of wild symbols appearing on the qualifying games’ reels. Each wild adds 1 point to the player’s overall score.

1. 1x 500 Free Spins
2. 1x 200 Free Spins
3. 1x 100 Free Spins
4. 2x 50 Free Spins

2. Opt in and participation

The participating games need to be positioned in a prominent lobby space. The qualifying games need to be visible upon the players' arrival on your website on both mobile and desktop throughout the promotional period.

We recommend preparing an exclusive tab of qualifying games for a better player experience and easier navigating.

A website slider needs to be included to your website (desktop and mobile). A banner example will be available for use at Bragg Gaming's client area and can be used or modified for promotional purposes.

The games must have at least one promotional campaign structured around them (Email or SMS send out, social media campaigns, affiliate promotions, website promotion, etc.). We encourage you to share all promotional materials with us.

4. Notification and rewarding

The notification will be executed as follows: The dedicated account manager will notify the operators about the winners. If the operator confirms that the winning player is eligible for the prize the free rounds³ will be issued either directly via the API (if the operator supports automatic awarding), or manually by the operator⁴.

If implemented, automatic awarding of free rounds will occur immediately when a quest's milestone is completed by a player, or when a game-based tournament concludes.

Notification for operators without automatic awarding will occur once weekly (each Thursday during the promotion's duration), as well as a day after the promotion concludes for the final batch of winners (Wednesday, November 1st, 2023).

The prizes will be covered by Bragg Gaming and deducted on the next monthly invoice. The winning players can originate from any participating operator.

The value of the free rounds (0,20€⁵ or its equivalent in other currencies) can be used within the designated qualifying games listed in the **Promotion structure and schedule** section of this document.

³ The free rounds can only be used by operators, which have the Bragg Free Rounds API integration completed.

⁴ Manually issued meaning, the operator must visit the Bragg Aggregator Back-Office to credit the players.

⁵ If a game's minimum bet exceeds 0,20€, the free round value is exceptionally the next closest free spin value available for the game.

5. General Terms and Conditions

Elements of the dedicated promo pack must be used on the gaming site(s), in newsletters and other media including social media. The promo pack will be made available in the Bragg Gaming's client area – Promotions section.
